

4th HiHA International Symposium

Hiroshima Research Center for Healthy Aging (HiHA)

主催: 広島大学健康長寿研究拠点

March 10, 2017
Hiroshima University, Japan

Opening Remarks **Takashi Toda** (Hiroshima University, Japan)

13:00-13:30 **Jo Murray** (University of Sussex, UK) *chair*: Masaru Ueno
The Smc5/6 complex and replication stress

13:30-14:00 **Jan Karlseder** (Salk Institute for Biological Studies, USA) *chair*: Masaru Ueno
DNA repair pathway choice regulation by the small protein CYREN'

14:00-14:20 Coffee Break

14:20-14:50 **Toshiaki Nakano** (Chang Gung Memorial Hospital, Taiwan) *chair*: Seiji Kawamoto
Histones and GAPDH: Moonlight functions for immunoregulation and tolerance

14:50-15:20 **Michiko Oyoshi** (Harvard Medical School, USA) *chair*: Seiji Kawamoto
Effects of maternal allergen sensitization on offspring food allergy

15:20-15:50 **Emiko Mizoguchi** (Kurume University School of Medicine, Japan) *chair*: Seiji Kawamoto
Host-microbial interactions in chronic colitis and colitis-associated cancer

15:50-16:10 Coffee Break

16:10-16:40 **Minoru Yoshida** (RIKEN, Japan) *chair*: Takashi Toda
Chemical biology of protein acetylation and fatty acylation

16:40-17:10 **Masashi Narita** (Cancer Research UK Cambridge Institute, UK) *chair*: Takashi Toda
Cell-cell communication in senescence

17:10-17:40 **Keith Blackwell** (Harvard Medical School, USA) *chair*: Masaki Mizunuma
Regulatory mechanisms mediating longevity

Closing Remarks **Seiji Kawamoto** (Hiroshima University, Japan)

※本シンポジウムは5研究科共同セミナーです。

開催日時: 平成29年 3月10日(金) 13:00-17:40

会場: 広島大学先端科学総合研究棟401N講義室
